**ITALY, ISRAEL CONTRIBUTE TO UNIFCYP OPERATION COSTS**

Italy and Israel have informed the United Nations that they are making further voluntary contributions to help cover the operation costs of the United Nations Force in Cyprus.

Italy has sent a note to the UN Secretary-General, U Thant, dated 7 November in which it pledges $182 millions to aid developing states.

**NEW MIDDLE EAST PEACE FORMULAS BEFORE COUNCIL**

The United Kingdom and the Soviet Union have submitted new, separate draft resolutions to the UN Security Council on the question of the Middle East — raising to four the number of draft resolutions now before the Security Council which contains its debate at UN Headquarters in New York over a possible Arab-Israeli settlement.

The new formula forwarded by Great Britain states that "genuine peace" must include the application of both of the following principles:
- Israeli withdrawal from territories occupied during the June war.
- End of all belligerent claims along with acknowledgement of the sovereignty, territorial integrity and political independence of all States in the area and their right to live free of threat within secure and recognized borders.

The resolution went on to affirm the need for guarantees, freedom of navigation through international waterways, achieving a just settlement of the Palestinian refugee problem, and safeguarding the inviolability of every State through measures including demilitarized zones.

The Soviet draft resolution calls for an Israeli withdrawal from Arab areas occupied in the June war, and an acknowledgement by all Middle East States of the others' rights to live in peaceful independence. Other provisions urge a just settlement of the long-sustaining Palestinian refugee problem, and freedom of passage through international waterways in accordance with international agreements.

The Security Council has adjourned until later this week for further private consultations following the submission last Monday of the Soviet draft.

**ROAD SAFETY WEEKS ENDS: ACCIDENTS DROP**

During the period 13-20 November, the accident rate was again reduced by 33 1/3 per cent when compared with the previous Safety Week of two months ago.

The Green Light was able to be switched on from Saturday and lasted until close of play. Four accidents occurred of which only one was a major accident whilst another was so minor, incurring damage estimated at only 500 mils, that it hardly rated inclusion in the figures. However, playing it perfectly fairly, it has been included.

The figures are particularly pleasing as two rotations had recently occurred, normally one of the peak accident periods.

Drivers are urged not to let up in their care or vigilance simply because the Safety Week has ended — make UN drivers a shining example to other Cyprus road-users.

**UNESCO Acts to Protect Mideast Culture Property**

**UNESCO** — the United Nations Educational, Scientific and Cultural Organization — has announced in Paris that Mr. B. Dumren of Switzerland and Mr. H.H. Reink of the Netherlands, have agreed to serve as Commissioners-General, accredited respectively to the Arab States and to Israel, to supervise the application in the Middle East of The Hague Convention on the Protection of Cultural Property in the Event of Armed Conflict.

Contracting parties to the Hague Convention undertake to respect cultural property situated within their own countries, as well as within the territory of other Contracting Parties, taking necessary measures for its safeguarding and preservation.

NEW UNPA Stamps Now
Available at UNIFICYP HQ

The United Nations Postal Administration has now placed on
sale its first commemorative stamp and miniature art
sheet in its series on United Nations art.

This issue reproduces the stained glass panel designed by the French artist, Mr. Marc
Chagall, and donated by him and members of the UN Sec-
retariat as a memorial to Dag Hammarskjöld, former UN
Secretary-General, and 15 others who died with him in
September 1961 in a plane crash at Ndola (Zambia).

The stamp issue consists of a miniature art sheet of six
6-cent stamps, and a single 6-cent stamp depicting the
“Kiss of Peace” panel from the upper middle section of the
window.

The new Chagall issues and other UN Postal Administra-
tion issues can now be ob-
tained — for philatelic pur-
oposes from Mr. Lino Dodici,
Room 11, Secretariat section,
UNIFICYP HQ (Main Han-
gar), ever Monday, Tuesday,
and Friday — from 11:00 to
12:00 hours.

New issues being prepared
by UNPA include a six-cent
definitive (see photo above)
which is scheduled to be issued
on 16 January next.
